HOME BASICS: KEYS TO SUCCESS

SEPTEMBER 21-24

1-3 PM ET | ONLINE

REGISTER NOW

The HOME Basics: Keys to Success training will explore the most critical elements of creating a successful HOME program. Now more than ever, PJs face increasing need, limited resources, and complex requirements. This training will help new and experienced HOME staff learn how to meet these challenges through strategically structuring and implementing effective HOME programs, and building both their own capacity and partner capacity. This training is also suitable for housing and community development managers responsible for overseeing HOME staff.
